

How Can The Light Up Travel Machine

Time Travel You?

Have you wonderd what it is like to time travel?

If so then the light up travel machine is just the thing to use.

This brand new device has wheels for time,month,year,dayand countury. A time travel clock that alows to travel any where in time precisely

Would you like to know how it works? Then read on

Finding that hes dropped a pound down the drain and he wants to get it back Wallace flickes a silver switch on te right side of the machine wich makes a bright red light inside it.

At this point a voice (from the machine) will ask you the year,month,date and countury that you wish to voyage to.

Follow its instructions and you will be transported quick as a flash where ever you wanted to go.
